

## Problem

**Mt. Carmel Cogeneration, Inc.**, a 40 MW generator, was seeking ways to optimize its assets and improve profitability.

## Solution

Kinect Energy implemented its unique XISOT software combined with its 24x7 customer-focused energy consulting services to provide Mt. Carmel Cogeneration with an actionable roadmap on how to capitalize on real-time market signals.

## Results

- Increased **profitability by 61%**
- Expanded revenue stream through execution of short term electricity contracts and through strategic sale of Renewable Energy Credits (“RECs”)
- Improved transparency and visibility of current market conditions
